

# LCS HealthCare Registration & Compliance Services

## *Why not take advantage of the expertise and experience of LCS HealthCare?*

LCS HealthCare provide the advice, materials and support you need to successfully register and manage cosmetic, medical and dental facilities providing services which are regulated by the Care Quality Commission (CQC). For a service you can rely on and experts you can trust, call LCS HealthCare to discover why experience matters.

## **Experience Matters**

LCS HealthCare is the UK's leading provider of CQC registration and regulatory compliance services.

We have helped over 1000 facilities, from small Independent Clinics to full Acute Hospitals to ensure patient treatments and the services they Provide meet the regulations and standards

## **You get more than just paperwork!**

We offer a range of compliance support packages - allowing you to choose the level of advice and materials you need. But whichever package you choose you can be assured of a high quality, timely and efficient service. Our expertise includes registration and regulatory compliance for:

- Private Doctor Services
- Acute Hospitals
- Minor surgery units
- Laser Vision Correction centres
- IVF Treatment centres
- Hair Transplant clinics
- Laser & IPL Clinics

Our vast and diverse experience in the field of regulatory compliance together with our rigorous adherence to nationally recognised standards in preparing comprehensive compliance documentation tailored to your facility helps ensure a smooth path to registration and beyond.

Our unique one day Compliance Workshop is included in our packages, which together with telephone and email support ensure that Registered Managers and staff understand the registration and feel confident with their policies and procedures. We can also provide ongoing external supervision for independent evidence of compliance with Quality and Safety Standards.

### **Doctor Consultation Services (DCS) & Doctor Treatment services (DTS)** - previously Private Doctor Services (PD)

If you carry out treatments for "disease, disorder or injury", consultations, health assessments, screening and vaccinations, pathology services or minor surgery then your facilities must be registered with the CQC and comply with the appropriate standards. We have extensive experience in this area and have helped many clinics achieve first time registration.

### **Acute Hospital (ACS) Services**

Facilities offering a broader scope of or more invasive treatments, under anaesthesia or sedation or providing cosmetic surgery, (including laser lipolysis treatments) must be registered as an Acute Hospital (ACS). LCS Healthcare have the expertise to help you successfully design, register and manage an Acute Hospital facility - allowing you to demonstrate that your patients receive quality assured services and treatments. We provide the documentation to support your services including protocols, policies, procedures and facility design advice.

### **Other Registerable Services**

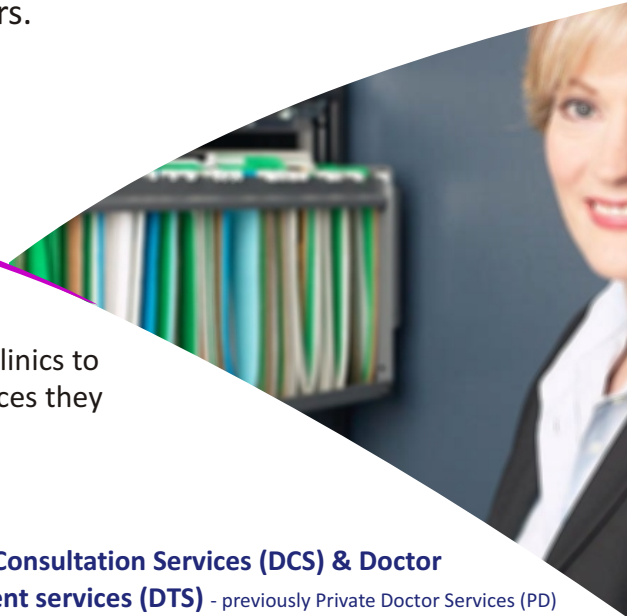

We are able to provide assistance with the full range of CQC registerable establishments to the same professional standards.

*If you would like to discuss your specific requirements or issues in relation to regulatory compliance please telephone us for advice without obligation.*

# Care Quality Commission Registration & Regulatory Compliance

## Complete packages or individual services - the choice is yours

We recognise that the registration and compliance requirements for each facility or healthcare provider may be different, which is why we aim to be as flexible as possible in the services we offer. For most clients a 'Complete CQC Registration & Compliance Package' is the best option - with everything required for registration and compliance. Some common service options are listed below but if you prefer to 'mix and match' or discuss your requirements in person, just give us a call and we will be happy to oblige!

### Doctor Consultation & Treatment Service

All the benefits in one comprehensive package combining:

- **CQC Application Support and Evidence Checking**
- **Policies and Procedures for Essential Standards for Quality and Safety (ESQS)**
- **Supporting documentation for ESQS**
- **Visit Reports and Action Plans to verify compliance**
- **CQC One Day Compliance Workshop (two places)**
- **Advice and support for clinical governance and infection control**
- **Where required Laser Protection Advice and Medical Protocol Services**
- **Discounted Training and more!!**
- **Doctor Consultation / Treatment Service Package Fees: £3550 + VAT**
- **Acute Hospital Service Package Fee: £4000.00+VAT**

You get more than just paperwork from LCS Ltd!

### Managed CQC Application

Your completion of the online application form is just the beginning - our managed application service gives detailed advice on the registration process and guides you through the application. Once we have discussed your needs, we check the supporting evidence prior to submission (based on the information you have provided) with documents and essential supporting materials for you to read and check. Also includes 2 places on our CQC Compliance Workshop

**Fee: £890 + VAT (Single site, DCS, DTS or ACS)\***

### CQC Compliance Polices and Procedures & Documentation

We work closely with you to produce policies and procedures that integrate easily into your working practice to demonstrate compliance with the Essential Standards of Quality and Safety Documents are supplied fully printed for the appropriate standards.

**Fee: £1200.00+ VAT (Single site, DCS, DTS or ACS)\***

*Individual policies or documents also available, please call and we shall be happy to discuss your requirements.*

### CQC Compliance Workshop and Mandatory Annual Training Updates

**All Compliance Packages** include two places on our *CQC Compliance Workshop* - a full day taking you step-by-step through the paperwork and process of registration. Also available as stand alone courses are the elements of mandatory training for clinical and non clinical staff. Please call for full details and dates.

\*Prices quoted exclude travelling expenses

### Prevention and Control of Infection or Clinical Governance Audit

We will visit your clinic and review the facility, processes and systems which you have in place in relation to either prevention and control of infection or clinical governance. If needed both services can be delivered at a modest additional charge.

We will produce a report following the visit and give you an action plan to follow to ensure that all essential points are covered prior to your CQC inspection.

**Fee: £800 + VAT (Single site, single service)\***

### Chartered Laser/IPL Radiation Protection Adviser (LPA)

Our accredited LPA's will visit your facility to discuss the suitability, safety and layout of your facility. The service includes a comprehensive Registry containing the policies, Local Rules, Risk Assessments, facility reports and documents that demonstrate your commitment to laser/IPL safety management and CQC compliance. All documents comply with current British and European Standards/Guidance.

**Fee: £490 + VAT (Annual Contract, single site, single Laser/IPL Controlled Area)\***
